Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 3 and 6 recite "one or more muzzle extensions". Claims 5 and 8 recites "the muzzle extensions". Claims 5 and 8 are indefinite for a paintball marker having one extension.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4, 6 and 9-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Fernandez (6668815).

Art Unit: 3644

As to claim 1, Fernandez discloses an adaptor (60) having a body with a hollow cylindrical tube and having two threaded ends; a marker end and a barrel end connection; and the adaptor having an internal diameter equal to the internal diameter of a universal barrel; a tubular insert (90) which extends the entire length of the barrel and adaptor; the insert comprising a hollow tube able to be inserted in the barrel.

As to claims 2, 4 and 9, disclosed is an inner diameter to at least about 0.695 inches (col. 4, lines 58-61).

As to claims 3 and 6, disclosed is a barrel (30); an adaptor (60); a muzzle (40); and an insert (90).

As to claims 10 and 11, the method steps of the instant claim are readily apparent during the operation of the device of Fernandez.

Claims 5, 7 and 8 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
